

CONTENTS

Maryam Golabadi, Pooran Golkar, Sezai Ercisli	
Estimation of gene action for fruit yield and morphological traits in greenhouse cucumber by mating designs	3
Éva Németh-Zámbori, Krisztina Szabó, Péter Rajhárt, Katalin Inotai, Katarzyna Seidler-Lozykowska, Péter Radácsi	
Variability of phenolic compounds of four aromatic <i>Lamiaceae</i> species in consequence of different water supply	13
Ali Sabir, Ummuhan Karaca, Kevser Yazar, Ferhan K. Sabir, M. Atilla Yazici, Osman Dogan, Zeki Kara	
Vine growth and yield response of Alphonse Lavallée (<i>V. vinifera</i> L.) grapevines to plant growth promoting rhizobacteria under alkaline condition in soilless culture	25
Agnieszka Balbierz, Eugeniusz Kolota	
The effects of nitrogen fertilization and stage of fruit maturity at harvest on yield and nutritional value of scallop squash	33
Ersin Atay, Bruno Hucbourg, Aurore Drevet, Pierre-Eric Lauri	
Investigating effects of over-irrigation and deficit irrigation on yield and fruit quality in Pink Lady™ ‘Rosy Glow’ apple	45
Małgorzata Kostecka, Iwona Szot, Tomasz Czernecki, Paweł Szot	
Vitamin C content of new ecotypes of Cornelian cherry (<i>Cornus mas</i> L.) determined by various analytical methods	53
Memnune Sengul, Derya Sener, Sezai Ercisli	
The determination of antioxidant capacities and chemical properties of rosa (<i>Rosa damascena</i> Mill.) products	63
Anna Konieczny, Iwona Kowalska	
Arbuscular mycorrhiza – partner in communication	73
Zuhal Dilaver, Mohsen Mirzapour, Hayrettin Kendir	
Breaking seed dormancy and micropropagation of perennial vulneraria milkvetch (<i>Astragalus vulnerariae</i> DC.)	79
Katarzyna Bączek, Jarosław L. Przybył, Olga Kosakowska, Zenon Węglarz	
Accumulation of phenolics in Eleuthero (<i>Eleutherococcus senticosus</i> (Rupr. et Maxim.) Maxim.) as affected by plant development	89
Wojciech Kukula, Ewa Mirzwa-Mróz, Wojciech Wakuliński, Elżbieta Paduch-Cichal	
Characteristics of <i>Valdensia heterodoxa</i> Peyr. as an <i>Ericaceae</i> pathogen in Poland	101
Ewa Dorota Król, Barbara Anna Abramczyk, Ewa Dorota Zalewska, Beata Zimowska	
Fungi inhabiting fruit tree shoots with special reference to the <i>Diaporthe</i> (<i>Phomopsis</i>) genus	113
Olesja Escuer, Sirje Vabrit	
Effect of organic mulches on development of three ornamental annual plants, moisture and chemical properties of soil	127
Justyna Leśniowska-Nowak, Michał Nowak, Magdalena Zapalska, Karolina Dudziak, Krzysztof Kowalczyk	
Influence of CCC and trinexapac-ethyl on the expression of genes involved in gibberellic biosynthesis and metabolism pathway in isogenic line with <i>Rht12</i> dwarfing gene	141
Grażyna Zawiślak, Renata Nurzyńska-Wierdak	
Plant morphological parameters and yield of winter savory depending on the method of plantation establishment	153
