

CONTENTS

Alžbeta Hegedúsová, Ivana Mezeyová, Ondrej Hegedús, Alena Andrejiová, Tünde Juriková, Marcel Golian, Tomáš Lošák Increasing of selenium content and qualitative parameters in garden pea (<i>Pisum sativum</i> L.) after its foliar application	3
Sebnem Kusvuran, H. Yildiz Dasgan Drought induced physiological and biochemical responses in <i>Solanum lycopersicum</i> genotypes differing to tolerance	19
Osama Abd El-Salam Shalaby, Miroslaw Konopinski, Mansour El-Sayed Ramadan Effect of chelated iron and silicon on the yield and quality of tomato plants grown under semi-arid conditions	29
Andrzej Salata, Mateusz Gortat, Halina Buczkowska Leaf petioles blanching influence on the yield and chemical composition of cardoon (<i>Cynara cardunculus</i> L.)	41
Agnieszka Szopa, Inga Kwiecień, Halina Ekiert Biotransformation of hydroquinone and 4-hydroxybenzoic acid in <i>Schisandra chinensis</i> (Chinese magnolia vine) <i>in vitro</i> cultures	57
Renata Nurzyńska-Wierdak, Grażyna Zawisłak, Agnieszka Najda Ontogenetic variability in the quantity and quality of winter savory (<i>Satureja montana</i> L.) herb yield	67
Zahra Karimian, Leila Samiei, Jafar Nabati Evaluation of drought resistance in <i>Nitraria schoberi</i> as a native plant by irrigation intervals for applying in arid urban landscape	81
Adnan Younis, Atif Riaz, Usman Tariq, Muhammad Nadeem, Nasir Ahmad Khan, Muhammad Ahsan, Waqas Adil, M. Kaleem Naseem Drought tolerance of <i>Leucophyllum frutescens</i> : physiological and morphological studies reveal the potential xerophyte	89
Robert Kurlus, Sławomir Świerczyński, Krzysztof Rutkowski, Henryk Ratajkiewicz, Agnieszka Malinowska, Aleksandra Wyrwał Exogenous 'Ga ₃ ' and 'Ga ₄₊₇ ' effects on phenological indices, frost hardiness and quality properties of 'English morello' sour cherry (<i>Prunus cerasus</i> L.)	99
Jadwiga Wierzbowska, Bożena Cwalina-Ambroziak, Marta Zalewska, Arkadiusz Światly Cultivation system versus the content of minerals in carrot (<i>Daucus carota</i> L.) roots	111
Wanda Wadas, Krzysztof Kalinowski Effect of titanium on growth of very early-maturing potato cultivars	125
Barbara Marcinek, Katarzyna Karczmarz, Mariusz Szmagara Mineral oils impact on yield of progeny bulbs and quality of cut tulip flowers as well as spread of viruses	139

Justyna Lema-Rumińska, Anna Mellem	
Genetic diversity of chrysanthemum plants derived via somatic embryogenesis using rapd markers	149
Andrzej Salata, Hector Moreno-Ramon, Sara Ibáñez-Asensio, Halina Buczkowska, Renata Nurzyńska-Wierdak, Agata Witorożec, Marzena Parzymies	
Possibilities to improve soil physical properties in garlic cultivation with cover crops as living mulches	157
Tatiana Eugenia Şesan, Elena Enache, Beatrice Michaela Iacomì, Maria Oprea, Florin Oancea, Cristian Iacomì	
<i>In vitro</i> antifungal activity of some plant extracts against <i>Fusarium oxysporum</i> in blackcurrant (<i>Ribes nigrum</i> L.)	167
Abdollah Ghasemi Pirbalouti, Fatemeh Malekpoor, Azam Salimi, Ahmadreza Golparvar, Behzad Hamedi	
Effects of foliar of the application chitosan and reduced irrigation on essential oil yield, total phenol content and antioxidant activity of extracts from green and purple basil	177
Helena Łabuda, Halina Buczkowska, Rafał Papliński, Agnieszka Najda	
Secondary metabolites of <i>Phaseoli pericarpium</i>	187
Muhammad Saqib, Muhammad F. Khalid, Sajjad Hussain, Muhammad A. Anjum	
Effect of water stress and planting system on growth, yield and quality of sweet potato	201
